Swisscom Wholesale

Welcome!

Here you can enter orders, call invoices or report incidents at any time. Simply select the appropriate product in the navigation to the left.

Get your inventory online

Under "Colocation" you can get your "Installed Base" (Inventory) – all you see is your active inventory throughout Switzerland. This inventory is divided into 3 different service types:

- COL F+G
- KOL IC
- KOL TM

..2019, CI Public

Request for an accompanied Access

To order an accompanied access, click on the desired location and open a new access request.

In this online form, you must provide information about yourself and the person/company who needs access.

Via "Send access request" you send the request to Service Assurance Wholesale, who will process your order. Subsequent communications (such as appointment confirmations, postponements, etc.) are then made exclusively by e-mail (and not via the portal).
