## Reminder: Replacement of FTTH Coverage Lists

Replacement of the FTTH coverage lists in the WSG Information

### Background:

With the revision of the AKFT, the data management of the planned and orderable fiber locations was standardized. To this end, new lists with the prefix 55 will be displayed to the ISPs instead of the lists with the prefix 35:

- Prefix 55: ISP und CoPa

The digits "999999\_" preceding the names of the 35 lists are no longer displayed in the 55 lists.

During a three-month transition period, both lists will be displayed in parallel.

### Procedure:

- Activation of 55 lists are now available on WSG
- New transition period from mid-October to mid-January
- Removal of the 35 lists with mr2501

Please check the lists carefully and let us know by 16 December 2024 at the latest if the new lists are not suitable for you.

Do not hesitate to contact us at [bbcs.service@swisscom.com](mailto:bbcs.service@swisscom.com) if you have any questions.

# Upcoming WSG Releases

WSG release- and test system-upgrade dates
